RAZZOR

A close-up photograph of water being poured from a glass pitcher. The water is captured in mid-pour, creating a dynamic, textured stream that tapers as it falls. The background is dark, making the clear water stand out. The pitcher's rim and the water's surface are highly reflective, showing bright highlights.

**Plasmare l'acqua
grazie a linee affilate
e forme massicce**

**Moulding water
through sharp edges
and strong materials**
